

Cooker hoods and warm air outflow

Flexible and stretchable

Aluminium venting duct hose • 1.5 m - Ø 120 mm

For cooker hoods and warm air outflow

CHARACTERISTICS

Aluminum venting duct hoses are **flexible conduits designed for efficiently channeling warm air** from hoods, dryers, and other appliances to the outside environment. Crafted from sturdy aluminum, these hoses are **durable, corrosion-resistant, and capable of withstanding high temperatures without deformation**. Their flexibility allows for easy installation, while their smooth interior surfaces ensure optimal airflow efficiency.

LOGISTIC INFORMATION

	LxHxW (cm)	Weight (Kg)	Qty
Product:	42x13x13	0.32	1
SubPack:	70x70x90	20	50
Pallet:	80x190x120	88	200

CONSUMER BENEFIT

- **Easy to install:** flexible, bendable to meet different installation requirements
- **Durability:** Aluminum is a sturdy material that can withstand high temperatures and resist corrosion, making it suitable for venting hot air from hoods and other appliances
- **Universal:** aluminum duct hoses are compatible with a wide range of venting systems and fittings, making them a versatile choice for different setups and configurations
