

Anti-odour

Washable and reusable

## Carbon filter anti odour • Type 45 (202 x 228 x 10 mm • 81 g)

*The best solution to prevent the spread of bacteria in the air and to eliminate bad odours*

### CHARACTERISTICS

The **Carbon Filter Anti odour Type 45** for cooker hoods reduces **unpleasant odours in the kitchen** and **protects against the spread of bacteria in the air** thanks to its absorbent action.

### THE RECOMMENDATION OF WPRO

With normal hood use, the filter should be cleaned once a month. The filter is best washed in the dishwasher at the highest temperature possible, using a normal dishwasher detergent. After washing, dry the filter in the oven at 100°C for 10 minutes to reactivate it. Caution: do not exceed the indicated temperature and dryingtime in the oven. The filter will retain its odour absorbing capacity for three years.
