

TS 6477C CPNE

12NC/Fx: F166529

GTIN (EAN) code: 5054645665297

DIMENSION	MEAS	MEASUR	
APPLIANCE			
Product width	770	mm	
Product depth	510	mm	
Radius of product corner	10	mm	
Product height (MAX protrusion from the worktop)	4	mn	
Underneath the bearing area of the appliance	50	mn	
Distance between cut out and top frontal projection	15	mn	
Distance between cut out and top lateral projection	10	mn	
Plateau thickness	4	mn	
Gas outlet positioning	N/A		
Gas outlet X positioning	0	mn	
Gas outlet Y positioning	0	mn	
Power cable	With product		
Power cable positioning	Rear left		
CUT OUT			
MIN front distance from cut-out to end worktop	0	mn	
MIN rear distance from cut out to wall/furniture	35	mn	
MIN lateral distance from cut out to wall/furniture	100	mn	
MIN height from worktop to above furniture	400	mn	
MIN cut out width	750	mn	
MAX cut out width	752	mn	
MIN cut out depth	480	mn	
MAX cut out depth	492	mn	
MIN cut out radius	0	mn	
MAX cut out radius	10	mn	
FLUSH INSTALLATION			
Indicates whether a flush installation is possible. Default is "N"	Yes		
MIN Milling rabbet width	773	mn	
MAX Milling rabbet width	775	mn	
MIN Milling rabbet depth	513	mn	
MAX Milling rabbet depth	515	mn	
Milling rabbet thickness	6	mn	
Radius milling rabbet	11.5	mn	
Flush installation KIT (2)	Service KIT		
Indicates the minum worktop thickness with standard installation for gas	0	mn	
Indicates the maximum worktop thickness with standard installation for gas	0	mn	
Indicates the minum worktop thickness with flush installation for gas	0	mn	
Indicates the maximum worktop thickness with flush installation for gas	0	mn	
WITH OVEN			
Indicates whether the cooktop can be installed above oven. Default is "Y"	Yes		
MIN worktop thickness with oven	28	mn	
MAX worktop thickness with oven	0	mn	

DIMENSION	MEASU	JRE
Indicates whether a protection tray against heat or contact is needed with oven. Default is "N"	No	
Indicates whether a ventilation opening in the back side of cabinet is needed or not with oven. Default is "Y"	Yes	
Indicates the position of the opening in the back side of the cabinet with oven	Тор	
MIN Width of rear opening required with oven	550	mm
MIN Depth of rear opening required with oven.	45	mm
MIN AREA of rear opening required with oven	247.5	cm ²
MIN distance from cabinet to rear wall, with oven	20	mm
Indicates whether a ventilation opening in the top front side of cabinet is needed or not with oven. Default is "N"	No	
MIN Frontal gap required, with oven (2)	0	mm
MIN frontal opening area required with oven	0	cm ²
WITH CABINET		
MIN worktop thickness with cabinet	12	mm
MAX worktop thickness with cabinet	0	mm
Indicates whether a protection tray against heat or contact is needed. Default is "Y"	Yes	
MIN distance from bottom line of appliance to protection tray	10	mm
Indicates whether a ventilation opening in the tray is needed or not with cabinet	Yes	
Recess dimension X	90	mm
Recess dimension Y	120	mm
Positioning dimension X by axis	45	mm
Distance of the tray from the back panel/wall	60	mm
Indicates whether a divider is available	Service accessory	
Indicates whether a ventilation opening in the back side of cabinet is needed or not. Default is "Y"	Yes	
Indicates the position of the opening in the back side of the cabinet.	Тор	
MIN Width of rear opening of the cabinet	550	mm
MIN Depth of rear opening of the cabinet	45	mm
MIN AREA of rear opening of the cabinet	247.5	cm ²
MIN distance from cabinet to rear wall	20	mm
Indicates whether a ventilation opening in the top front side of cabinet is needed or not. Default is "N"	No	
MIN Frontal gap of the cabinet	0	mm
MIN frontal opening area of the cabinet	0	cm ²
INSTALLATION SPACE		
Depth of immersion underneath the appliance	0	mm
Width protruding area below bottom box	0	mm
Depth protruding area below bottom box	0	mm
Protruding area: X positioning	0	mm
Protruding area: Y positioning	0	mm
ACCESSORIES FOR INSTALLATION		
Gasket	Pre assembled	

DIMENSION	MEASURE	
Clips	Separate KIT	
Injector KIT	N/A	
Elbow KIT	N/A	
COOKTOP HOOD INSTALLATION ONLY FOR GAS		
MIN distance from cooktop to above furniture	0	mm
MIN distance between cabinets above the cooktop	0	mm
MAX distance between cabinets above the cooktop	0	mm
