

Reduces bacteria

Removes bad odours

PurifAIR - Anti-odour & antibacterial replacement filter

The best solution to keep your refrigerator fresher and more hygienic

CHARACTERISTICS

Thanks to Microban® exclusive technology, it effectively filters and cleans the air inside your fridge, removing bad odours and reducing bacteria. Thanks to its absorption power the active carbon in the filter **reduces on average up to 70%*** of the molecules which are responsible for bad odours. The active carbon is treated with Zinc pyrithione which **reduces the amount of bacteria by up to 60%***. Replace the air filter every 6 months.

THE RECOMMENDATION OF WPRO

Replace every 6 months for optimum performance

Suitable for: Filter replacement in the refrigerator ① ② ③

Filter replacement in the PurifAIR device ④
